

This publication contains parts information for 1959 Model Passenger Cars. In the event replacement parts which are not listed are required, they may be ordered by description or Part Type Code, giving the model or serial number of the vehicle to which they apply.

Trim items, such as seat backs, seat cushions and trimming materials are not listed and should be ordered by description and car serial number. A special Trim Order Form is provided to expedite trim material orders.

A Numerical and an Alphabetical Index are provided.

The use of this Parts List and the arrangement of information therein is explained in the following sections: Section I -- General Information; Section II -- Ordering Information for Replacement Parts. These sections should be thoroughly reviewed.

SECTION I GENERAL INFORMATION**1959 PASSENGER CAR MODEL DESIGNATION**

The following information will acquaint you with the model code system being used with the 1959 series vehicles.

The year is identified by the letter "M" for 1959.

Each car make is identified by the letters P for Plymouth, D - Dodge, S - DeSoto, C - Chrysler, and Y for the Imperial.

The various chassis for each make are identified by the numbers 1, 2, and 3. In the Plymouth and Dodge series only, No. 1 represents a 6 cylinder chassis and No. 2 an 8 cylinder chassis. On DeSoto, Chrysler, and Imperial, the numbers 1, 2, and 3 indicate one of the various 8 cylinder chassis built.

The last letter in the model code indicates the price class in which the particular model falls, as shown below.

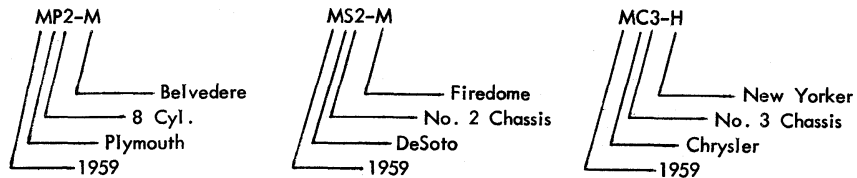

L - Low price class (Savoy, Coronet, Firesweep, Windsor, Imperial)

M - Medium price class (Belvedere, Royal, Firedome, Saratoga, Imperial Crown)

H - High price class (Fury, Custom Royal, Firelite, New Yorker, Imperial LeBaron)

P - Sports class (Sport Fury, D500, Adventurer, 300D)

Example:

A glance at the model designation will enable you to identify a model by year, make of car, number of cylinders and price class.

1959 PASSENGER CAR SERIAL NUMBER DESIGNATION

The new serial number coding system will be uniform for all car assembly plants. The code breakdown is as follows:

The serial number will consist of a ten (10) digit alpha and numeric sequence number. The first digit being an alpha designation for model year - "M".

The second digit is the numeric identification for car line used in the uniform body codes.

1. Plymouth 6 Cyl.
2. Plymouth 8 Cyl.
3. Dodge
4. DeSoto
5. Chrysler
6. Imperial

The next digit is the model series identification used in the uniform body codes.

0. Coronet 6 Cyl.
1. Coronet 8, Firesweep, Windsor, Imperial
2. Thunderbolt
3. Savoy, Royal, Firedome, Saratoga, Crown Imperial
5. Belvedere, Custom Royal, Fireflite, New Yorker, LeBaron
6. Fury, Dodge 6 Cyl. Taxi, DeSoto 6 Cyl. Taxi
7. All Wagons
8. Plymouth 6 Cyl. Taxi, Plymouth 8 Cyl. Taxi, all other 8 Cyl. Taxis
9. Special Models (D300 - Adventurer - Sports Fury, Pursuit Sedan, etc.)

The fourth digit will be a numeric designation for producing plant.

1. Jefferson Assembly Plant
2. Dodge Assembly Plant
3. Evansville Assembly Plant
4. Los Angeles Assembly Plant
5. Newark Assembly Plant
6. Plymouth Detroit Assembly Plant
7. Imperial Assembly Plant
8. Valley Park Assembly Plant

The last six digits will consist of a six digit sequence number. The sequence numbers will all begin with 100001. Each model series for each car line will begin with sequence number 100001.

1959 PLYMOUTH

SYMBOLS USED IN THIS PARTS LIST

The following symbols are used in the Parts List and revisions thereto:

- * - An asterisk preceding a part number indicates a change or addition.
- ⊠ - A double box preceding a part number indicates parts which have been added and not previously published.
- ★ - A star symbol in the "Per Car" column means "use as required."
- () - The numerals within parenthesis in the model column refer to notes at the bottom of the page. These notes have been used wherever necessary to further explain model application, serial number breaks, etc. Such notes are numbered and cross referenced to the item to which they apply.

PARTS LIST REVISION SERVICE

GENERAL

Subscribers to the MoPar Passenger Car Parts List Revision Service will be provided with revision pages on a scheduled monthly basis. Proper interfiling of the revision pages will insure the subscriber a complete and up-to-date Parts Book.

Accompanying each mailing of a set of revision pages is a covering letter which outlines the contents of the particular revision: Group Name, Group Number, and Page Numbers being eliminated, replaced, or added to each revised group. It is advised that the letter be read carefully to avoid elimination of pages which are still current.

INTERFILING REVISION PAGES

The importance of prompt interfiling of revision pages upon receipt cannot be stressed too greatly.

The initial order for the Revision Service includes a post binder with the best operating mechanism available for this particular service.

The following method for interfiling revised and new pages has been found to be efficient and time saving and is recommended for your use:

1. Insert the revised pages loosely in their proper location in the book.
2. Pull the locking trigger and lift the transfer bar with all pages down to the first loose revision sheet which has been inserted in its proper location.
3. Compare the revised (loose) page with the superseded page, noting changes.

NOTE: If you use the revised pages as part of your parts record-keeping system, note the changes in the revised (loose) page and post accordingly.

4. Remove superseded page.
5. Place revised page on post of transfer bar.
6. Replace transfer bar with all pages in place on bottom post.
7. Re-lock cover and your book is current and accurate.

SPECIFYING INFORMATION

The following information is included in this Parts List:

1. Part Type Code
2. Part Name
3. Part Number
4. Model Application
5. Quantity used per vehicle

6. Effective points of changes by vehicle serial number, engine number and body number.
7. Description and dimensions necessary for proper identification of parts.
8. Parts not previously listed in the Parts List are designated by a double box (E) symbol preceding the part number.

HOW TO LOCATE PARTS

The Parts Book is divided into Groups. A tab index is provided to separate the Groups. To locate a part by name, see Alphabetical Index. To locate a part by number, see Numerical Index.

In cases where only the location of the part on the vehicle is known, refer to Tab Index to locate the Group in which the part is located. Then refer to the illustrations which appear at the beginning of that Group for identification of the part by name and Part Type Code. Parts are listed in Part Type Code sequence within the Group and reference to the proper code will determine the part number.

STANDARD PARTS

Standard Parts such as bolts, nuts, etc., are listed under the major parts which they attach and are not coded. Standard Parts listed as Major Parts, such as fuses, bulbs, and bearings in the 100,000 part number series are assigned a Part Type Code and coded within the group in which they are listed.

A comprehensive listing of the most commonly used Standard Parts available in carton quantities will be found under Group 18.

ABBREVIATIONS

Abbreviations as used throughout this list are interpreted as follows:

abs.	absorber	C/L	Center Line

PART TYPE CODE SYSTEM

To simplify the listing and locating of individual parts, a system of Part Type Codes is used in this Parts List.

To illustrate, a Type of Part will be indicated as:

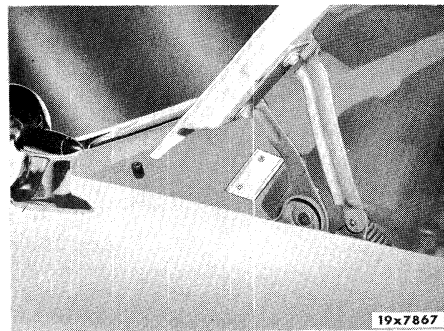

2-03-3 KNUCKLE, w/BUSHING

This code is broken down as follows:

- 2- Indicates the Major Group: "Group 2 -- Front Suspension"
- 03 Indicates the Sub Group: "03 -- Steering Knuckle"
- 3 Indicates the Code for the specific name of the part: "Knuckle, w/Bushing"

Part Type Code 2-03-3 will always appear as "KNUCKLE, w/BUSHING."

VEHICLE SERIAL NUMBER PLATE

The Vehicle Serial Number Plate is located either on the left front door hinge pillar or on the front of the dash under the hood on the right side.

If you are not sure of the correct part number when ordering parts for a specific vehicle, always specify the Vehicle Serial Number.

ENGINE NUMBER

LOCATING ENGINE NUMBER

A boss is provided on all cylinder blocks upon which the Engine Number is stamped. For 6-cylinder engines, this is located on the left side of the block at the front and below the cylinder head. For 8-cylinder engines, it will be found on the top of the cylinder block behind the water pump, except on the Plymouth MP2, where it is located on the front of the block beneath the left-hand (driver's side) cylinder head.

IMPORTANT

MoPar Engines are supplied with blank engine number bosses only. Dealers are governed by state law on the application of engine numbers. In states where license fees are based on displacement or taxable horsepower, it will be necessary to change Vehicle Registration if the new MoPar Engine differs from the one which it replaces.

ILLUSTRATIONS

Illustrations are located at the beginning of each group. Parts are identified on the illustration by Noun Name and Part Type Code. The Part Type Code designation will serve as an index to locate the listing in the Group.

PAGE NUMBERING

Two-part page numbers are used throughout this list. The first part of the page designation indicates the major group or section. The second part indicates the actual page number in the group. For example:

1-1 indicates Group 1, Accessories, Page 1

2-1 indicates Group 2, Front Suspension, Page 1

In the maintenance of the Loose Leaf Parts List Revision Service, it may become necessary to add information beyond the capacity of the page. In this event, an "A" page will be used. For example: If it becomes necessary, because of change, to add several part numbers to page 2-1 and space does not permit the addition, you will be given Page 2-1A. Page 2-1A should be filed immediately following page 2-1.

ALPHABETICAL INDEX

Reference to any part by sub-group name is provided in the Alphabetical Index. This index indicates the Part Type Code, by means of which the listing can be quickly located.

NUMERICAL INDEX

Reference to any part by part number is provided in the Numerical Index. This index indicates the Part Type Code.

SECTION II

ORDERING INFORMATION FOR REPLACEMENT PARTS

For ease in ordering and speed in shipping, MoPar replacement parts have been coded according to Stocking Point. These codes are explained in the Parts Price List.

Because items with certain codes are available at different Stocking Points, it is important that parts orders be developed separately for each Stocking Code ("P", "N", or "D").

HOW TO ORDER REPLACEMENT PARTS

1. Price Class "A", "B", and "S" Parts (in "P" Section Parts Price List)
 - a) These parts may be ordered separately or combined on the same order for a single shipment.
 - b) The total value of the "Base Prices" for all the part numbers of the above parts classes that are included on the same order qualifies that order for any applicable Volume Discounts and/or Allowances off of such "Base Prices."
 - c) "Base Prices" means the "Net Prices" published from time to time in column #6 of the Parts Price List and its supplements.
 - d) All Mail Orders (Scheduled, Unscheduled, Emergency)
 - (1) Use Standard Order Form 4615 exclusively for ordering "P" Section items from your usual source of MoPar parts.
 - (2) Send all such orders by First Class Mail.
 - e) Back Orders
 - (1) Stock Orders (Scheduled, Unscheduled)
 - Back Orders from all classes of Stock Orders sent to Area Parts Plants will be held at the Area Parts Plants.
 - If the original orders so qualified, transportation will be prepaid on shipments of back orders. Otherwise, transportation charges will be F.O.B.
 - The billing for all back order shipments will be subject to the prices in effect on the date of shipment as applied to the value basis at which the original order qualified.
 - (2) Emergency Orders
 - Back Orders from Emergency Orders will be referred for shipment to the nearest Parts Plant where such items are available.
 - All shipments will be F.O.B. shipping point, and billing will be subject to the prices in effect on the date of shipment.
2. Price Class "X" Parts (in "N and D" Section of Parts Price List)
 - a) Since these are inactive part numbers that seldom warrant stocking in the field, they usually are ordered only when needed for a particular service job.
 - b) Accordingly, speed in receiving, processing and shipping such orders is vital to you, to us, and to the public, and we have "tuned up" for this job independently of the processing for Stock Orders. In effect, every order will be handled as an Emergency Order.
 - c) An important part of this accelerated "line-up" is two separate self-identifying order forms. A supply of these forms has been sent to all Dealers, Dodge Truck Centers and Parts Wholesalers, and will continue to be available gratis upon request.

HOW TO ORDER REPLACEMENT PARTS - CONT'D

d) Trim Order Form D-16713

- (1) This order form is intended to assist in the compilation of and facilitate the processing of Trim Orders. Please use this form in all cases as detailed on the form itself. By so doing, it will help you and us to avoid errors and to expedite shipment.
- (2) Trim fabrics (body upholstery cloth, vinyl, etc.) are usually available by the yard or fraction thereof. When ordering fabric of this type, please furnish all information on Form D-16713, plus the maximum length of material required. The length specified will be supplied in the bolt width of the material.

e) "N" and "D" Order Form D-16712

Large background letters "N and D" unmistakably identify this form which is to be used SOLELY and EXCLUSIVELY for ordering part numbers with the "N" or "D" Stocking Point Codes (except Trim).

f) Send Orders For:

- (1) Trim (including Telephone and Telegraphic Orders) - to Marysville Plant Only (see (7) below).
- (2) Code "N" parts ordered separately (including Telephone and Telegraphic orders) - to Area Parts Plants.
NOTE: See Section III -- General Information for Telegraphic procedures.
- (3) Code "D" parts ordered separately (including Telephone and Telegraphic orders) -- to Marysville Plant only.
- (4) When ordering Stocking Code "D" items from Marysville, any Dealer, Truck Center, or Parts Wholesaler has the option, regardless of his geographical location, to also include Code "N" items on the same order. Shipment will be made on the same terms and conditions as if the "N" parts had been ordered separately from an Area Parts Plant.
- (5) DO NOT, however, combine "P" Section items and "N and D" Section items on the same order.
- (6) Please send all mail orders to Chrysler Motors Corporation by First Class Mail.
- (7) When sending orders for "N and D" Section items to the Marysville Parts Plant, address them to:

CHRYSLER MOTORS CORPORATION
P. O. BOX 722
PORT HURON, MICHIGAN

- (8) Back Orders - Back Orders for "N and D" items will be billed at the prices in effect on the date of shipment.

If the original order so qualifies, transportation will be prepaid on shipments of Back Orders; otherwise, transportation will be F.O.B.

- (9) Unlisted Items in the Parts Price List.

Inquiries concerning the availability, prices, etc., of part numbers that are not listed in either section of the Parts Price List should be sent to:

CHRYSLER MOTORS CORPORATION
P. O. BOX 1718
DETROIT 31, MICHIGAN

ORDERING BY TELEGRAM

3. Ordering by Telegram

- a) When ordering by telegram, follow procedure as outlined above for ordering parts. Do not mix P Section parts with N and D Section parts on telegraphic orders.
- b) Numbers in a telegram are charged for at the rate of one word for each five digits. Code words are charged for at the rate of one word for each five letters in the code word.
- c) Use the Master Code Letters if your telegraphic order is for two or more part numbers of the same series.

EXAMPLE If your order is for part numbers 605 884, 635 885, 637 034, 667 423, and 669 328, it is counted as 10 words.

However, a savings can be effected by using the Master Code Letters and writing your order as follows:

K 05884, 35885, 37034, 67423, 69328

The count is 6 words -- a savings of 4 words.

For orders of a single part number, or several part numbers of different series, it is not necessary to use the Master Code Numeral.

EXAMPLE If your order is for part numbers 605 884, 706 124, 1718 124, and 1814 122, enter your order with all digits of the part number.

MASTER CODE LETTERS

B-100,000	K- 600,000	YB-1,100,000	YK-1,600,000	ZB-2,100,000
C-200,000	M- 700,000	YC-1,200,000	YM-1,700,000	ZC-2,200,000
E-300,000	R- 800,000	YE-1,300,000	YR-1,800,000	ZE-2,300,000
F-400,000	L- 900,000	YF-1,400,000	YL-1,900,000	ZF-2,400,000
J-500,000	Y-1,000,000	YJ-1,500,000	Z-2,000,000	ZJ-2,500,000

This Master Code will identify the first digit of a 6 digit part number or the first and second digits of a 7 digit part number. The remaining digits need not be coded. The following example illustrates use of the Master Code Letters.

UTILITY CODES

The Utility Codes, listed here, may be used in giving shipping instructions and for making inquiries about parts orders.

FAABW	Ship to us by air express	FAAMH	Charge our account and ship by air express to
FABPN	Ship by air express, charge direct to	FACBY	Charge our account and ship air mail to

FAAEZ	Ship to us by express	FACEB	Charge our account and ship by parcel post - special delivery to
FABWB	Ship by express, charge direct to	FAAYT	Charge our account and will be picked up by
FABEA	Ship by express C.O.D. to	FAAKE	We will call and pick up parts
FAAFA	Ship to us by freight	FABLH	We will call and pick up parts C.O.D.
FABIE	Ship by freight S.B.D.L. to	FABMI	When and how did (or will) you ship our order of (or number)
FAAJE	Ship to us by truck	FABSM	Cancel order for parts, our order number
FABVA	Ship by truck, charge direct to	FABOK	Cancel order for parts, our telegram of
FAADY	Ship to us by parcel post		
FABTU	Ship by parcel post, charge direct to		
FABCY	Ship by parcel post C.O.D. to		
FACDA	Ship to us by parcel post - special delivery		
FACFC	Ship by parcel post - special delivery C.O.D. to		

UTILITY CODES - CONT'D

The following example will illustrate use of both Master Code Letters and Utility Codes and the resulting savings when ordering parts by telegram.

FACDA two each 51019 70107 B 01263 01283 05721 10839 11698 E 50780 50791 56124 57802 57806
FAABW for car 10106982 one each K 02454 08804 33297 36846 39182 41684 FABMI 405

De-coded this telegram would read:

Ship to us by parcel post special delivery two each 51019, 70107, 101263, 101283, 105721, 110839, 111698, 350780, 350791, 356124, 357802, 357806. Ship to us by air express for car 10,106,982 one each 602454, 608804, 633297, 636846, 639182, 641684. When will you ship our order number 405?

This telegram, as coded, would be charged for as 33 words. Without coding the count would have been 64 words. To receive maximum benefit from coding, part numbers should be listed in numerical order. Obviously, care must be used when coding to insure that correct information has been furnished.

AREA PARTS PLANTSCENTER LINE, MICHIGANMail Address:

Center Line Parts Plant
Chrysler Motors Corporation
7000 E. Eleven Mile Road
P. O. Box 779
Detroit 31, Michigan

Telephone - Detroit
JEfferson 9-3000

TWX No. 625

Telegraph Address:
